In addition to the above Organizing Committee members, a number of people deserve special mention for their extensive efforts in support of the conference. In particular, the Board is grateful to Nga Vu-Lintang, Yvonne Chen, Denise Gutierrez and Wing-Sze Liu of JPL for their planning and successful handling of the on-site registration and publications duties throughout the conference, and for providing the on-site signage. We are indebted to Kirsten Maynard (JPL) for preparing the Program and Abstract Book; to Ian McKinley (JPL) for developing the speaker timer to keep us all on time; and to Steve Staso who has maintained our Cryocooler.org website for the past three conferences. We also sincerely thank Richard Bachman and the many other sales and catering staff at the Town & Country Resort and Convention Center for coordinating all the conference activities and refreshments; and a special thank you to both Corinne Youngholm and Jamie Klages of Arrangements Unlimited for the coordination and execution of a most enjoyable banquet event held at the San Diego Natural History Museum. Finally, thanks go to Jeff Raab and Mark Michaelian, who as interns to the proceedings editing activity, edited a number of submitted manuscripts in support of Saul Miller and Ron Ross.
